

DEBRA BOULT TELLS HER STORY

The following testimonials are all from parents that have used Dr. Aron to treat their children. Many of these individuals had tried multiple specialists without success for years. Dr. Aron was able to restore the skin and give the children almost instant and permanent relief from itching and severe eczema. If you wish to correspond with any of these parents and ask questions, they can be found on Dr. Aron's Facebook Discussion Group.

My son started treatment when he was 8 years old, he is now 15 years old. He was born with eczema and we struggled keeping his skin under control. Other treatments stopped working for him. He never slept and was constantly getting infections and feeling unwell with constant visits to the GP and the hospital. The dermatologists wanted to try him on immunosuppressants.

After seeing Dr Aron on a popular morning tv programme we decided to contact him. Within days of starting treatment my son was sleeping through the night and itching less and he was happy! He had his quality of life back, we got our family life back! He has long periods where his eczema is in remission and when he does flare his eczema is under control now. Life's great!

We will be forever thankful to Dr Aron for the care and support he provided in giving us our son back , ending his suffering, and to see him enjoying life as all children should!
