

# SHEILA MURRAY TELLS HER STORY

The following testimonials are all from parents that have used Dr. Aron to treat their children. Many of these individuals had tried multiple specialists without success for years. Dr. Aron was able to restore the skin and give the children almost instant and permanent relief from itching and severe eczema. If you wish to correspond with any of these parents and ask questions, they can be found on Dr. Aron's Facebook Discussion Group.

---

My daughter Anna started using Dr Aron in July 2014, aged 5. Anna had less severe eczema than many of Dr Aron's patients but it was still impacting massively on our whole family's life. We were applying a potent steroid every week but her skin was never clear for more than a few days at a time and she was always itchy. We started applying Dr Aron's cream 5 times a day, all over her body (fortunately her face was not affected) and, with a matter of two days, we noticed a difference. Two more days later, we got rid of the Scratch Sleeves which Anna had slept in every night since she was a few months old. It was almost as though she didn't have eczema any more – her skin was silky smooth and the itch was gone. We are now in month 4 and down to one application every 3 days to Anna's torso and back and one application a day to her arms and legs. We hope to step down further soon. A year ago I would never have dreamed that eczema would have taken a backseat in our lives. It's like it's gone into remission. Anna loves the new itch-free self and we will all be forever grateful to Dr Aron for what he has done for us and so many other families.
