

SOUMYA ADYA TELLS HER STORY

The following testimonials are all from parents that have used Dr. Aron to treat their children. Many of these individuals had tried multiple specialists without success for years. Dr. Aron was able to restore the skin and give the children almost instant and permanent relief from itching and severe eczema. If you wish to correspond with any of these parents and ask questions, they can be found on Dr. Aron's Facebook Discussion Group.

My 18 month old has suffered from Atopic Eczema (dermatitis) since she was 4 weeks old. She was initially managed by her GP , but as she started getting secondary bacterial infections and the eczema was not responding to hydrocortisone any longer, we got referred to the hospital to see a pediatric dermatologist. The strength of steroid cream was bumped, we were advised to use it for longer periods of time before weaning down, moisturise 6 times a day, bandage to reduce the damage from scratching, wet wrapping during flare ups , using a soap substitute for baths, anti-histamines(we tried different ones) etc etc. All of these led to no improvement and my husband and I felt pretty hopeless and frustrated. The scratching was driving us insane and we had no social life.

Then we heard about Dr.Aron on a FB support group. Within 24 hours of starting our daughter on his treatment, life changed. Our girl was no longer scratching and with every passing day her skin healed. Within 7-10 days we had a happy child with healthy looking and feeling skin.
