

LAUREN EATHORNE TELLS HER STORY

The following testimonials are all from parents that have used Dr. Aron to treat their children. Many of these individuals had tried multiple specialists without success for years. Dr. Aron was able to restore the skin and give the children almost instant and permanent relief from itching and severe eczema. If you wish to correspond with any of these parents and ask questions, they can be found on Dr. Aron's Facebook Discussion Group.

My 14 yr old daughter has had chronic severe eczema since birth. It has caused serious (life threatening at times) illness, pain and suffering. She didn't thrive at all physically or emotionally. The family suffered too, her little brother seemed to come "second" to the eczema and all the time and effort it took to keep his sister well enough not to be admitted to hospital "again". Financially, we were exhausted as we tried every treatment under the sun, most of which were incredibly expensive, and none that worked. One night, in October 2014, as I was sitting with her, trying to stop her scratching herself to shreds I stumbled across an article on Dr Aron, and decided we had nothing to lose, and registered. She was so ill at this time she couldn't walk, her entire body was raw and she was unable to attend school. Best decision ever. 6 months in, she is a different girl, happy, growing, healthy and her skin is the best it has ever been in her life. If we were to meet someone who didn't know how severe her skin has been, they wouldn't know she has eczema. We feel confident we can continue to keep her healthy, partly due to the fact that the cream works, and is allowing her body to heal but also the fact that we have the continued amazing support from Dr Aron. I have never felt like I was annoying him when I have emailed asking for advice. I am never going to stop advocating for people to learn about Dr Aron's treatment. It is truly lifesaving
